

Adding Menu Items

Thursday, May 9, 2019 1:16 PM

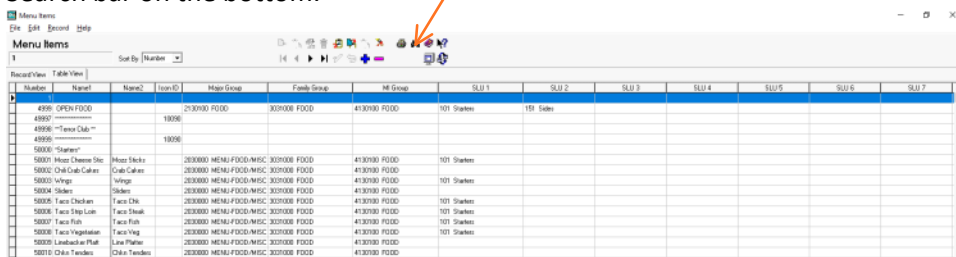

Open Menu Items in POS Config

Determine what screen the key needs to be added to and pick an item from that screen.

Search for item on the same screen by clicking on the binoculars and filling in the Search bar on the bottom.

MI Class, Menu Level Class, Print Class have configuration settings attached to them and should be the same as surrounding items unless otherwise specified.

Item No.	Item Name	MI Class	Menu Level Class	Print Class	Condiment Membership	Req'd Condiments	Allowed Condiments	Course Membership

Req'd Condiments are condiments that are required and will pop up once the key is selected. Allowed Condiments are condiments that are allowed to be selected after you ring up the item and will appear indented under item. These are not mandatory. Condiment settings will typically match surrounding items in the list.
